

2026 Caltech Space Challenge

March 22–27 2026

Apply to be a member of a 16 person student team to participate in a design competition to tackle a challenging space mission.

Students will be able to interact with JPL and other industry experts, both working on the mission and through networking events.

Students will participate to tours of local aerospace facilities and attend lectures from experts on spacecraft design.

Requirements to apply:

- **Student must be of graduate standing.**
- **Highly motivated individuals ready to work full time for the 5 days of the challenge.**
- **Passion for space missions.**
