

Summer 2025
8 weeks/Online | May 19 – July 11

EDCI 591:

AI Integration in Education

This course, the prerequisite for the AI in Education Certificate, aims to provide students with the knowledge and skills needed to understand and utilize Generative AI in education.

In this course, we will:

- Define AI/GenAI and discuss its potential integration into education
- Create an innovative AI/GenAI application using Google Teachable Machine
- Develop a learning activity using GenAI that caters to different learning preferences and needs
- Analyze and discuss the ethical issues surrounding the educational use of AI/GenAI
